Television

MarTV is one of the first IPTV providers in Georgia, which offers TV services with OTT (Over-The-Top) and Multicast technologies to its customers.

Our Offices are also operating in Czech Republic and USA.

OTT technology is providing TV signal to costumers' devices (STB - SetTopBox) via internet bypassing traditional methods as cable and over the air signal receivers. It allows delivering IPTV services to any internet provider network.

MarTV offers more than 200 TV channels with rewind/pause functionality. More than 30 HD channels will satisfy any demanding user.

Aside 200+ TV channels users can enjoy additionally YouTube free applications and Adjarasport channels in separate package as well as VOD.

Voice and SMS

- Members of the Group of Companies are operating in Voice and SMS already more than 20 years.
- During this period, we established ourselves as a trusted and valuable partner.
- Scope of our business covers Caucasus, Eastern Europe, Europe, Central Asia and many more.
- We have direct interconnections with the leading Georgian and International partners.
